

Nozzle Bracket Modification
System Part Number:
ADD90W

Description: Instructions for Nozzle Bracket modification for
installation on Verity "J" and "C" series cameras.

The nozzle bracket in our ADD90W camera washer system is designed to be compatible with some of our smaller cameras as well as our "J" and "C" series cameras. However, a minor modification is needed for installation on our "J" and "C" series cameras.

When installing the nozzle bracket on our "J" series camera, please use the longer screws provided with the ADD90W System
